FIFTEEN KILLED IN MAINE WRECK

Excursion and Regular Passenger Trains Collide.

THIRTY OR FORTY INJURED

Confusion of Orders and Thick Weather Conditions Are Believed to Be Responsible for Head on Collision on the Bangor and Aroostook Railroad. Special Train With Doctors, Nurses and Medical Supplies Goes to Scene.

Bangor, Me., July 29.—Fifteen persons were reported killed in a head on collision between a crowded excursion train on the Bangor and Aroostook railroad and a train from Van-buren to Bangor. Thirty or forty persons are known to have been injured and it is thought that several others are beneath the wreckage.

It is reported the two trains met head on as a result of confusion of orders and that the excursion train was running on the time of the regular passenger train. The smoking car of the excursion train next to the engine was telescoped by the tender. All the passengers in this car, most of whom were members of the Presque Isle band, are reported killed or seriously injured.

Engineer F. W. Garcelon of the excursion train was instantly killed. Engineer William Orr of the regular was found seriously hurt. Both firemen are missing.

The collision took place just outside the Grindstone station, seven miles north of Millinocket. A special train was rushed from this city with surgeons and medical supplies and nurses. It was expected it would take two hours to reach the scene of the wreck.

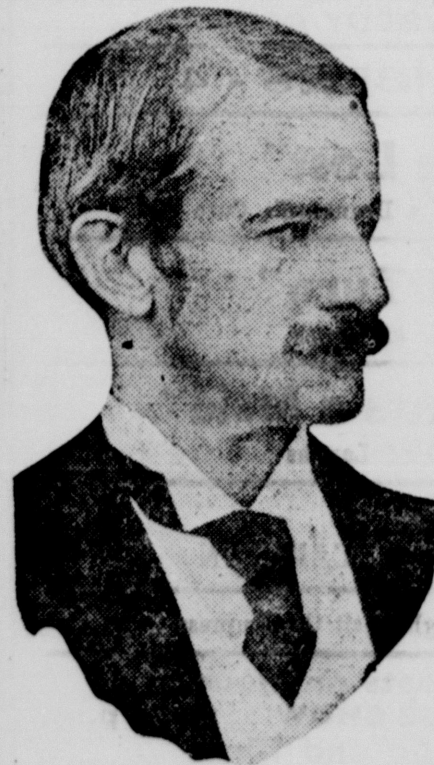

The excursion train was late and is reported to have been making good speed when the crash came. A heavy storm prevailed throughout Maine and it is believed the thick weather conditions had much to do with the disaster.

EDWARD M. SHEPARD IS DEAD

Prominent New York Lawyer Expires After Long Illness.

Lake George, N. Y., July 29.—Edward M. Shepard, a well known New York lawyer, who has been ill here for several weeks, is dead. He was born in New York July 23, 1850.

Edward Morse Shepard was one of New York's best known Democrats. He identified himself with the reform

EDWARD M. SHEPARD.

element in politics and had been mentioned for many public offices in the city and state.

He loomed large in political life, when as a Platt general he directed the prosecution of the noted boss, John Y. McKane, and twenty other offenders for ballot box stuffing at Coney Island in 1893. McKane was an absolute boss within his district, but Shepard broke his power and sent him to prison.

FOR UNITED BRITISH NAVY

Agreement, Whereby Colonies Will Aid, Up to Canada.

Ottawa, Ont., July 29.—The agreement between the imperial, Canadian, Australia and New Zealand governments for co-operation of navies, made at the recent imperial conference in London, was presented to the house of commons by Sir Wilfrid Laurier. He said he had received permission from the British government to make known the agreement without waiting for a copy to reach Australia for joint publication.

The agreement provides for the recognition of seniority of colonial naval officers where their length of service is greater than that of British officers on vessels co-operating with colonial ships.

Four Killed at Crossing.

Pittsburg, July 29.—Four persons were killed and one seriously injured when a fast express train on the Pennsylvania railroad struck an automobile at a grade crossing at Walkinburg, a suburb.

DOUBTFUL OF THEIR ACTIONS

Democratic Senators Worrying Over Political Alliance.

INCLINED TO DROP TARIFF

Some Leaders Busy Figuring Out if Political Capital Was Made for Themselves or Senator La Follette in the Passage of the Wool Bill by the Aid of Progressive Republican Votes—Free List Bill Seems Likely to Pass.

Washington, July 29.—The Democrats in the senate showed a disposition to reverse their oars and to back water on the tariff revision program. Some of the Southern senators even went to the extent of waiting upon Senator La Follette to urge him to not press his bill revising the cotton schedule as an amendment to the farmers' free list bill when it comes up Tuesday. The senator from Wisconsin would not promise them definitely and the Southern Democrats went away unhappy.

The Democratic leaders in the senate who went into the coalition with the Republican progressives are doubtful as to whether they made political capital for themselves or for Mr. La Follette. They are thinking it over. They heard from the South, especially from some of the industrial sections, and as a result of this information they now want to let the cotton bill go over until the regular session. They were saying that the cotton schedule is a very complicated one and that it would be a mistake to go into a revision of it without having more information at hand.

It was apparent that the Democratic senators are in favor of an early adjournment. There is less talk of staying in Washington "until the snow flies."

Realize Something Happened.

The Democratic senators appear to realize that something happened when the wool bill was passed through the senate as a result of a combination between themselves and the progressives under the leadership of Senator La Follette, but they are not certain just what it was. They have decided that they would like to get away before anything more important does happen.

Of course there are exceptions to this view. Senator John Sharp Williams, who is anxious to uproot the protection system, and Senator William J. Stone of Missouri were still in favor of keeping congress in continuous session and entering upon a general revision of the tariff. But they were practically alone in this direction, the sentiment of most of the Democrats appearing to be in favor of passing the farmers' free list bill, with a few amendments and then making an adjournment until December.

The free list bill, instead of being handicapped by the sugar, steel and other schedules as riders, is to be changed only by the Bailey amendment, which strikes out the provision placing farm products on the free list. This amendment is necessary to insure the Republican progressive vote.

Democrats of both houses expressed certainty that the free list bill will be put through the senate Tuesday by the same combination that put the wool bill through.

The intention of the free list bill, as a whole, as the progressive senators regard it, is to compensate the farmer for the loss supposed to have been inflicted upon him by the acceptance of Canadian reciprocity.

SOLUTION OF VETO CRISIS

"No Surrender" Movement Is Dying of Ridicule.

London, July 29.—A solution of the veto bill crisis without the creation of peers may be predicted with tolerable certainty. Premier Asquith had a final interview with King George, who goes with Queen Mary to Cowes.

The "no surrender" movement is dying of ridicule, its leaders not daring to publish the names of its alleged adherents. Lord Lansdowne, leader of the opposition in the house of lords, on the other hand, has received written pledges of support from more than 300 peers in his efforts to save the bill.

The following is expected to be the course designed for the veto bill:

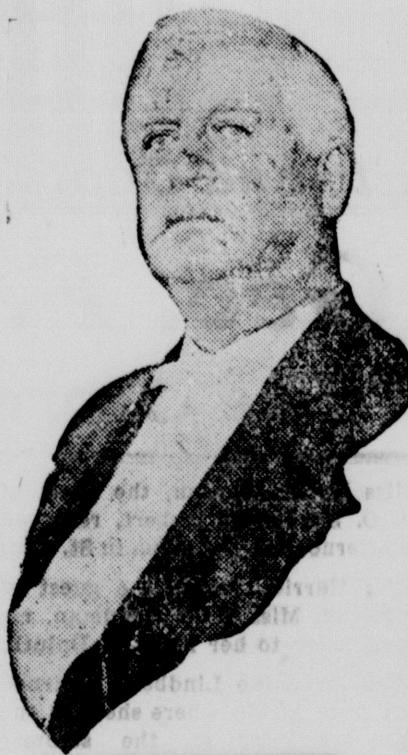

The house of commons Wednesday will reject the house of lords amendments and meanwhile intimation will be conveyed to Premier Asquith that Lord Staldwyn will take sufficient Unionist peers into the government lobby, if the Halsburys challenge a division to offset them. It is believed, however, that even this procedure will not be necessary, as it is very doubtful whether Lord Halsbury's following is equal in number to the Liberal peers.

But He Did.

Teacher—Bobby, give an example of the double negative. Bobby—I don't know none.—Boston Transcript.

SERENO E. PAYNE.

Presents Minority Report to the House on Cotton Schedule.

Copyright, 1910, by American Press Association.

DEBATE ON COTTON SCHEDULE

Minority Report Condemns Bill as Nonprotective Measure.

Washington, July 29.—Debate on the Democratic cotton schedule revision bill was begun in the house by Representative Underwood of Alabama, chairman of the ways and means committee, which prepared the bill. No date was fixed for closing debate on the measure, although it is believed it will end Wednesday with a vote on the day following.

The minority report was presented by Representative Payne of New York, leading minority member of the ways and means committee. It expresses opposition to the bill "because it does not furnish protective duties for a great American industry and it is frankly admitted that it is not intended to do so."

HALF MILLION LOSS BY FIRE AT WINONA

Explosion in Milling Plant Results in Its Destruction.

Winona, Minn., July 29.—Fire which originated presumably from an overheated motor, resulting in an explosion of the flour dust in the sack room, practically wiped out the plant of the Bay State Milling company, entailing a loss of fully half a million dollars. The company was the fourth largest producer of flour in the United States and its plant was one of the most modern in the Northwest.

The fire broke out just as the day force was planning to stop work and the night crew was coming on. The defective motor was discovered and a small fire was corralled, when a terrific explosion took place in an adjoining room on the north side of the ground floor of the main building. The alarm was spread immediately and all the men reached a place of safety before the flames cut off escape.

The fire department was handicapped because of the lack of water pressure due to the low stage of the river and with every available piece of fire fighting apparatus on the scene it became necessary to send a call for assistance to La Crosse and Eau Claire. Both responded quickly.

A few minutes after the firemen arrived the flames had spread through the west end of the mill and broken through the roof, where they were fanned by a high wind. The fire swept through the entire structure and half an hour after the alarm was sounded the building was engulfed in flames which licked up the adjoining structures and shot sparks for a mile into the business section of the city.

Miss Katherine Brice Dead.

Lima, O., July 29.—A cablegram from Calais, France, has brought news of the death of Miss Katherine Brice, youngest daughter of the late United States Senator Calvin S. Brice.

LABOR MEN TO RETALIATE

Would Extradite California Detective on Kidnapping Charge.

Indianapolis, July 29.—Attorneys for labor union leaders said that application for a requisition for James Hosick, a Los Angeles detective, charged with kidnapping John J. McNamara, was filed in the office of Governor Marshall. The governor is not in this city and attaches of his office denied knowledge of the application.

Hosick was indicted jointly with William J. Burns, who has given bond for his appearance. Hosick took McNamara from this city to Los Angeles after his arrest on the charge of dynamiting.

It was said that as soon as Governor Marshall issued a requisition for Hosick on Governor Johnson of California a special prosecutor and an officer would start for California to seek Hosick's arrest and extradition.

River Steamer Strikes Snag.

Quincy, Ill., July 29.—The sidewheel steamer St. Paul, carrying 220 passengers from St. Louis, Quincy and intermediate points, for St. Paul, struck a snag a mile above the Quincy bridge sinking in five feet of water.

BRYAN HAS LIST OF CANDIDATES

His Catechism Causes Much Political Talk.

TO BE ACTIVE IN CAMPAIGN.

Nebraska Is Expected to Have More Power in the Next Convention and May Dictate the Platform—"Favored Nation Clause" in Treaties Does Not Apply to Canada.

By ARTHUR W. DUNN.

Washington, July 29.—[Special.]—William J. Bryan's activity in Democratic presidential politics has given much concern to the many possibilities and their friends. That Bryan should put forth a long list of eligibles is interpreted to mean that he does not propose to be placed in the same position he was in 1904, when he opposed Judge Parker, but was without a candidate. He intends to have enough candidates, any one of which he may finally support, which will give him a large following in the convention.

It takes two-thirds of the delegates to nominate in a Democratic convention, and it is believed to be Bryan's purpose to control more than one-third, enough to prevent the nomination of any man he does not want. More than that, he wants a majority of the convention so that he can write his views into the platform.

In 1904 he could neither prevent the nomination of Parker nor could he dictate the terms of the platform. He could not prevent even the endorsement of Parker's gold telegram.

Will Exercise His Rights.

Those who know Mr. Bryan feel sure that he will exercise his full rights in the convention and in shaping the course of the Democracy. They believe he will be as active as at the convention of 1904, but with more power in the matter of control. He has indicated his intention in the long list of questions which have been put out for possible candidates to answer.

The Favored Nation Clause.

Much has been said about the possibility of abrogating "the favored nation clause" in treaties with other countries by admitting the products of Canada into this country under the reciprocity bill. Of course that is mere bugaboo. The favored nation clause in all treaties provides that the products of all other countries and the shipping of all other countries shall be admitted to this country under the same terms as granted to the most favored nation.

Canada is not a nation. Great Britain is the nation, and we do not admit the products of Great Britain to this country at lower duties than the products of other countries. Moreover, no other country is going to raise much of a fuss about this favored nation business. For a long time that clause has prevented favorable action upon measures designed to promote American shipping which provided discriminating duties in favor of goods carried in American ships.

Once let nations abrogate the favored nation clause by reason of our agreement with Canada and the shipping discrimination will be pushed forward with vigor.

Reverence For the Dead.

The Bailey-Williams debate developed great reverence on the part of both these senators for the long departed Democrats. Every Democrat was first or last brought forward to prove the contention of both disputants. Jefferson, Jackson, Van Buren, Calhoun and all the other distinguished men of the past who had anything to do with the tariff were marshaled forth to prove that tariff for revenue on everything was right and that free raw materials were also right at times.

While it was all very interesting it showed that the men of half a century ago were just as inconsistent on the tariff question as the men of today. As nearly every man in public life now has a different view of the tariff than he had even ten years ago it is almost useless to bring forward the men of the past as experts.

Vale Commissions.

If the monetary commission, with its long list of ex-senators and ex-representatives on the payroll, should actually be abolished it would not be strange to see other useless commissions discontinued. An inquiry has been started about these commissions, and it has been found that they have not been doing very much.

The Canadian boundary commission, created apparently to take care of certain lame ducks, has been in existence since March 4 and has never held a meeting. Nearly everything that is done by these commissions could be performed by congressional committees or by men in the executive departments.

Courage of His Convictions.

Senator Gore was talking about how much cheaper he could buy clothing abroad than in this country. "I am going abroad this summer," he said, "and I am going to stock up. I am a free trader and so have no conscientious scruples about buying goods abroad and bringing them home with me for my own use."

Thousands of Americans who are not free traders also take advantage of foreign markets to buy their clothing.

Softens It.

The way of the transgressor is hard. But they be generally has pneumatic tires on his automobile.—Puck.

CHARLES M. HAYS.

Resigns as President of Central Vermont.

PRESIDENT HAYS RESIGNS

E. H. Fitzhugh Elected Head of Central Vermont.

Montreal, July 29.—It is announced here that the directors of the Central Vermont railway have accepted the resignation of President Charles M. Hays. E. H. Fitzhugh, first vice president of the Grand Trunk railway, has been elected to lead the Central Vermont, while Mr. Hays remains as chairman of the board.

PREMIUM ON PANAMA BONDS

Government Receives \$1,288,204.69 in Excess of Face Value.

Washington, July 29.—The government receives \$1,288,204.69 in premiums on its recent \$50,000,000 issue of 3 per cent Panama bonds. The average price paid by bidders was 102.5764, a figure slightly below that at which the securities now are being quoted in open market. The highest price paid to the government was 105.50 and the lowest was 102.2167.

WILL OPPOSE SLASH IN EXPRESS RATES

Leading Railroads Preparing to Combat Any Reduction.

Chicago, July 29.—Leading railroads throughout the country are preparing to combat the widespread demand for a general slash in the express rates.

The position of the railroads, which heretofore has been a subject of speculation, was made clear at the second day's hearing on express charges and express companies' methods before the subcommittee of railroad commissioners representing the National Association of Railroad Commissioners.

P. S. Eustis, passenger traffic manager of the Chicago, Burlington and Quincy railroad, said that his company would resist all attempts to force a lower scale of prices on the express carriers. Representatives of other roads also said they would fight the attempt to cut the rates.

"This agitation about express rates is a serious matter," said Mr. Eustis. "It looks as if the express companies are trying to throw it all onto the railroads. Our company proposes to go into the express rate question on two grounds, one pertaining to the reasonableness of rates. If we can show that the express service is two and one-half times better than the freight service and that the express rate is only one and one-half times the freight rate the commission will be compelled to consider the proposition from that viewpoint."

Reports were read to show that the Great Northern Express company made a profit of 90 per cent during the fiscal year ending June 30, 1909.

The investigating committee adjourned and will continue its hearings in Chicago Aug. 15.

TO CONFER ON RATE DECISION

Transcontinental Road Officials Will Meet in Chicago Aug. 3.

Chicago, July 29.—Officials of all transcontinental railroads are invited to attend a conference to be held here Aug. 3 for the purpose of discussing the effect of the interstate commerce commission's recent decision in the intermountain rate cases, which provides for a substantial reduction in freight charges to points in the territory lying between Denver and the Pacific coast.

Statements issued recently by railroad officials indicate that the federal commerce court will be asked to review the decision.

Accepting the Inevitable.

Wonderful are the Hindus for accepting the inevitable. Tell one of these that he must take castor oil, and he will drain the oleaginous cup to the dregs and smack his lips. Tell him that his leg must be amputated, and he will present the limb for dismemberment and smile as he sees it severed. Tell him that he is to be hanged, and with no touch of emotion whatever he will reply, "Jo hookim" ("whatever is ordered"), just as if he had been told that he must have his corns cut.—Blackwood's Magazine.

TWO ASPIRANTS GIVE EVIDENCE

MODUS VIVENDI IN MOROCCO

Spanish Premier Outlines Plan to Prevent Clashes.

Madrid, July 29.—Premier Canalejas outlined the main features of the Franco-Spanish modus vivendi entered into to prevent clashes in the vicinity of Alcazar, Morocco, between Moorish and Spanish troops.

The agreement defines a line around the city on their sides on which Spanish and Moorish troops must keep. It also stipulates that diplomats and officers passing through the Alcazar region on their way to Fez are entitled to carry arms and have a small escort, but that the ordinary travelers shall require a special passport. In addition Spain agrees not to enlist deserters from the Moorish army for police duty.

Could Not Bear Disgrace.

Lansing, Mich., July 28.—Following the discovery that there was an alleged shortage of \$3,500 in the students' fund entrusted to his care, Luther E. Jensen, fifty-five years old, a check in the secretary's office at the Michigan agricultural college, committed suicide.

For Reciprocity with Mexico.

Washington, July 29.—Reciprocity with Mexico similar to Canadian reciprocity is proposed in a resolution introduced by Representative Burleson of Texas, calling on President Taft immediately to start negotiations with Mexico "looking to freer commerce between the two countries."

Chile to Build Submarines.

Seattle, Wash., July 29.—Contracts for the construction of two submarines for Chile have been forwarded to the Moran company of Seattle. The destroyers will be delivered to Chile within a year and will cost \$1,000,000.

Mason and Stringer Before Lorimer Committee.

NEITHER SHEDS MUCH LIGHT

Republican and Democratic Candidates for the Senate Unable to Say How Lorimer Defeated Them, but Each Makes Valuable Contributions to the Story of How Politics Are Played in Illinois.

Washington, July 29.—Two senatorial aspirants from Illinois, William E. Mason, a Republican, and Lawrence B. Stringer, a Democrat, were on the stand before the senate Lorimer committee. Neither threw much light on the methods by which William Lorimer defeated them for the senatorial toga, but each made valuable contributions to the story of how the political game is run in Illinois.

In an optimistic way former Senator Billy Mason told how the senatorial bee buzzed around him so long that he had developed a chronic case of senatorial ambition. Pessimistic and disheartened the Democratic candidate for senator in Illinois in 1909 expressed the opinion that his party in Illinois lacked cohesive force generally.

Mr. Stringer told of his fight "in splendid isolation" in the Illinois legislature for election to the senate and of his never failing hope that he would land in the senate by an "accident." He gave some testimony about a "fourteen club" reputed to have been in the process of organization at one time to elect Hopkins to the senate by the use of money and mentioned the name of Charles E. Luke as a Democratic member of the legislature who said he had been invited to become a member.

Just how it happened that thirty-three Democrats voted for Lorimer, making "the Democratic party an adjunct to a faction of the Republican party," Mr. Stringer testified he did not know, although he said that he had an opinion, which the committee did not ask him to express. He gave the name of E. O. Phillips, a reporter for the Chicago Record-Herald, as having told him once he had heard that a fund was being raised to elect Lorimer to the senate.

Former Senator Mason said he did not support Hopkins in the legislative fight subsequent to the primaries and that possibly a month before Lorimer's election Fred E. Coyne, former postmaster at Chicago, told him Lorimer would be elected. Mason expressed doubt as to the sincerity of "Brother Lorimer's" statement about his preferring to remain in the house to going to the senate.

"It is sometimes good campaign talk to say you don't want an office," philosophized Mason.

SIXTEEN BODIES FROM MAINE

No Hope for Identification of Victims of Explosion.

Havana, July 29.—The number of bodies that have been recovered from the wreck of the battleship Maine is officially placed at sixteen. All are now inclosed in seven metallic caskets, which lie on the main deck adjacent to the captain's cabin. There is no hope for the identification of any of them.

A search of the junior officers' quarters resulted in the discovery of several revolvers, swords and other equipment, while near the wardroom was found a notebook belonging to Lieutenant Jenkins. The contents of the book were illegible. It was identified by the initials of the lieutenant in silver on the back.

BRITISH CABINET CHANGES

Reported Rearrangement Following Passage of Veto Bill.

London, July 29.—Immediately after the veto bill has been passed there will be an entire rearrangement of the cabinet, according to the statement of an evening paper. It is known that both Viscount Morley, first president of the council, and the Earl of Crew, secretary of state for India, are anxious to throw off the harness on the score of illness.

The paper asserts that War Secretary Haldane and Augustine Birrell, chief secretary for Ireland, also will give up their portfolios. Secretary General Sir Rufus Daniel Jones is going to the upper house as a law lord and Home Secretary Churchill, according to the statement, is asked for the Irish secretaryship, and Lieutenant Colonel John E. B. Seely, the under-secretary of war, for the head of that ministry.

Freight Advances Suspended.

Washington, July 29.—Advances in class freight rates proposed by 159 railroads operating in Central Traffic association territory in the Middle West and averaging approximately 6 per cent were suspended by the interstate commerce commission until an investigation into their propriety can be

FIFTEEN KILLED
IN MAINE WRECKExcursion and Regular Passenger
Trains Collide.

THIRTY OR FORTY INJURED

Confusion of Orders and Thick Weather
Conditions Are Believed to Be Responsible
for Head-on Collision on the Bangor and
Aroostook Railroad. Special Train With
Doctors, Nurses and Medical Supplies Goes to
Scene.

Bangor, Me., July 29.—Fifteen persons were reported killed in a head-on collision between a crowded excursion train on the Bangor and Aroostook railroad and a train from Van-buren to Bangor. Thirty or forty persons are known to have been injured and it is thought that several others are beneath the wreckage.

It is reported that the two trains met head on as a result of confusion of orders and that the excursion train was running on the time of the regular passenger train. The smoking car of the excursion train next to the engine was telescoped by the tender. All the passengers in this car, most of whom were members of the Presque Isle band, are reported killed or seriously injured.

Engineer F. W. Garcelon of the excursion train was instantly killed. Engineer William Orr of the regular was killed seriously hurt. Both firemen are missing.

The collision took place just outside the Grindstone station, seven miles north of Millinocket. A special train was rushed from this city with surgeons and medical supplies and nurses. It was expected it would take two hours to reach the scene of the wreck.

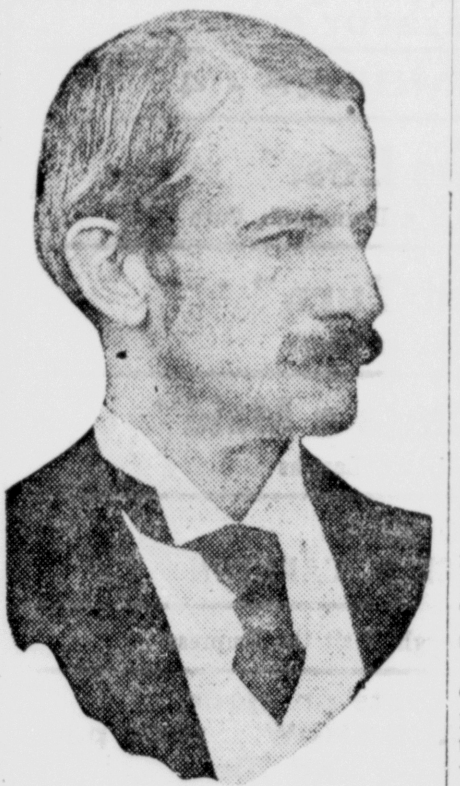

The excursion train was late and is reported to have been making good speed when the crash came. A heavy storm prevailed throughout Maine and it is believed the thick weather conditions had much to do with the disaster.

EDWARD M. SHEPARD IS DEAD

Prominent New York Lawyer Expires
After Long Illness.

Lake George, N. Y., July 29.—Edward M. Shepard, a well known New York lawyer, who has been ill here for several weeks, is dead. He was born in New York July 23, 1850.

Edward Morse Shepard was one of New York's best known Democrats. He identified himself with the reform

EDWARD M. SHEPARD.

element in politics and had been mentioned for many public offices in the city and state.

He loomed large in political life, when as a Platt general he directed the prosecution of the noted boss, John Y. McKane, and twenty other offenders for ballot box stuffing at Coney Island in 1893. McKane was an absolute boss within his district, but Shepard broke his power and sent him to prison.

FOR UNITED BRITISH NAVY

Agreement, Whereby Colonies Will
Aid, Up to Canada.

Ottawa, Ont., July 29.—The agreement between the imperial, Canadian, Australian and New Zealand governments for co-operation of navies, made at the recent imperial conference in London, was presented to the house of commons by Sir Wilfrid Laurier. He said he had received permission from the British government to make known the agreement without waiting for a copy to reach Australia for joint publication.

The agreement provides for the recognition of seniority of colonial naval officers where their length of service is greater than that of British officers on vessels co-operating with colonial ships.

Four Killed at Crossing.

Pittsburg, July 29.—Four persons were killed and one seriously injured when a fast express train on the Pennsylvania railroad struck an automobile at a grade crossing at Walkinburg, a suburb.

DOUBTFUL OF
THEIR ACTIONSDemocratic Senators Worrying
Over Political Alliance.

INCLINED TO DROP TARIFF

Some Leaders Busy Figuring Out if
Political Capital Was Made for
Themselves or Senator La Follette
in the Passage of the Wool Bill by
the Aid of Progressive Republican
Votes—Free List Bill Seems Likely
to Pass.

Washington, July 29.—The Democrats in the senate showed a disposition to reverse their oars and to back water on the tariff revision program. Some of the Southern senators even went to the extent of waiting upon Senator La Follette to urge him to not press his bill revising the cotton schedule as an amendment to the farmers' free list bill when it comes up Tuesday. The senator from Wisconsin would not promise them definitely and the Southern Democrats went away unhappy.

The Democratic leaders in the senate who went into the coalition with the Republican progressives are doubtful as to whether they made political capital for themselves or for Mr. La Follette. They are thinking it over. They heard from the South, especially from some of the industrial sections, and as a result of this information they now want to let the cotton bill go over until the regular session. They were saying that the cotton schedule is a very complicated one and that it would be a mistaken policy to go into a revision of it without having more information at hand. It was apparent that the Democratic senators are in favor of an early adjournment. There is less talk of staying in Washington "until the snow flies."

Realize Something Happened.

The Democratic senators appear to realize that something happened when the wool bill was passed through the senate as a result of a combination between themselves and the progressives under the leadership of Senator La Follette, but they are not certain just what it was. They have decided that they would like to get away before anything more important does happen.

Of course there are exceptions to this view. Senator John Sharp Williams, who is anxious to uproot the protection system, and Senator William J. Stone of Missouri were still in favor of keeping congress in continuous session and entering upon a general revision of the tariff. But they were practically alone in this direction, the sentiment of most of the Democrats appearing to be in favor of passing the farmers' free list bill, with a few amendments, and then making an adjournment until December.

The free list bill, instead of being handicapped by the sugar, steel and other schedules as riders, is to be changed only by the Bailey amendment, which strikes out the provision placing farm products on the free list. This amendment is necessary to insure the Republican progressive vote.

Democrats of both houses expressed certainty that the free list bill will be put through the senate Tuesday by the same combination that put the wool bill through.

The intention of the free list bill, as a whole, as the progressive senators regard it, is to compensate the farmer for the loss supposed to have been inflicted upon him by the acceptance of Canadian reciprocity.

SOLUTION OF VETO CRISIS

"No Surrender" Movement Is Dying
of Ridicule.

London, July 29.—A solution of the veto bill crisis without the creation of peers may be predicted with tolerable certainty. Premier Asquith had a final interview with King George, who goes with Queen Mary to Cowes.

The "no surrender" movement is dying of ridicule, its leaders not daring to publish the names of its alleged adherents. Lord Lansdowne, leader of the opposition in the house of lords, on the other hand, has received written pledges of support from more than 300 peers in his efforts to save the bill.

The following is expected to be the course designed for the veto bill:

The house of commons Wednesday will reject the house of lords amendments and meanwhile intimation will be conveyed to Premier Asquith that Lord Staldwyn will take sufficient Unionist peers into the government lobby, if the Halsburyites challenge a division to offset them. It is believed, however, that even this procedure will not be necessary, as it is very doubtful whether Lord Halsbury's following is equal in number to the Liberal peers.

But He Did.

the House on Cotton Schedule.

Copyright, 1910, by American Press Association

DEBATE ON COTTON SCHEDULE

Minority Report Condemns Bill as
Nonprotective Measure.

Washington, July 29.—Debate on the Democratic cotton schedule revision bill was begun in the house by Representative Underwood of Alabama, chairman of the ways and means committee, which prepared the bill. No date was fixed for closing debate on the measure, although it is believed it will end Wednesday with a vote on the day following.

The minority report was presented by Representative Payne of New York, leading minority member of the ways and means committee. It expresses opposition to the bill "because it does not furnish protective duties for a great American industry and it is frankly admitted that it is not intended to do so."

HALF MILLION LOSS
BY FIRE AT WINONAExplosion in Milling Plant Results
in Its Destruction.

Winona, Minn., July 29.—Fire which originated presumably from an overheated motor, resulting in an explosion of the flour dust in the sack room, practically wiped out the plant of the Bay State Milling company, entailing a loss of fully half a million dollars. The company was the fourth largest producer of flour in the United States and its plant was one of the most modern in the Northwest.

The fire broke out just as the day force was planning to stop work and the night crew was coming on. The defective motor was discovered and a small fire was corralled, when a terrific explosion took place in an adjoining room on the north side of the ground floor of the main building. The alarm was spread immediately and all the men reached a place of safety before the flames cut off escape.

The fire department was handicapped because of the lack of water pressure due to the low stage of the river and with every available piece of fire fighting apparatus on the scene it became necessary to send a call for assistance to La Crosse and Eau Claire. Both responded quickly.

A few minutes after the firemen arrived the flames had spread through the west end of the mill and broken through the roof, where they were fanned by a high wind. The fire swept through the entire structure and half an hour after the alarm was sounded the building was engulfed in flames which licked up the adjoining structures and shot sparks for a mile into the business section of the city.

Miss Katherine Brice Dead.
Lima, O., July 29.—A cablegram from Calais, France, has brought news of the death of Miss Katherine Brice, youngest daughter of the late United States Senator Calvin S. Brice.

LABOR MEN TO RETALIATE

Would Extradite California Detective
on Kidnapping Charge.

Indianapolis, July 29.—Attorneys for labor union leaders said that application for a requisition for James Hosick, a Los Angeles detective, charged with kidnapping John J. McNamara, was filed in the office of Governor Marshall. The governor is not in this city and attaches of his office denied knowledge of the application.

Hosick was indicted jointly with William J. Burns, who has given bond for his appearance. Hosick took McNamara from this city to Los Angeles after his arrest on the charge of dynamiting.

It was said that as soon as Governor Marshall issued a requisition for Hosick on Governor Johnson of California a special prosecutor and an officer would start for California to seek Hosick's arrest and extradition.

River Steamer Strikes Snag.
Quincy, Ill., July 29.—The sidewheel steamer St. Paul, carrying 220 passengers from St. Louis, Quincy and intermediate points, for St. Paul, struck a snag a mile above the Quincy bridge sinking in five feet of water.BRYAN HAS LIST
OF CANDIDATESHis Catechism Causes Much
Political Talk.

TO BE ACTIVE IN CAMPAIGN.

Nebraska Is Expected to Have More
Power in the Next Convention and
May Dictate the Platform—"Favored
Nation Clause" in Treaties Does Not
Apply to Canada.

By ARTHUR W. DUNN.

Washington, July 29.—[Special.]—William J. Bryan's activity in Democratic presidential politics has given much concern to the many possibilities and their friends. That Bryan should put forth a long list of eligibles is interpreted to mean that he does not propose to be placed in the same position he was in 1904, when he opposed Judge Parker, but was without a candidate. He intends to have enough candidates, any one of which he may finally support, which will give him a large following in the convention.

It takes two-thirds of the delegates to nominate in a Democratic convention, and it is believed to be Bryan's purpose to control more than one-third, enough to prevent the nomination of any man he does not want. More than that, he wants a majority of the convention so that he can write his views into the platform.

In 1904 he could neither prevent the nomination of Parker nor could he dictate the terms of the platform. He could not prevent even the endorsement of Parker's gold telegram.

Will Exercise His Rights.
Those who know Mr. Bryan feel sure that he will exercise his full rights in the convention and in shaping the course of the Democracy. They believe he will be as active as at the convention of 1904, but with more power in the matter of control. He has indicated his intention in the long list of questions which have been put out for possible candidates to answer.

The Favored Nation Clause.

Much has been said about the possibility of abrogating "the favored nation clause" in treaties with other countries by admitting the products of Canada into this country under the reciprocity bill. Of course that is mere bugaboo. The favored nation clause in all treaties provides that the products of all other countries shall be admitted to this country under the same terms as granted to the most favored nation.

Canada is not a nation. Great Britain is the nation, and we do not admit the products of Great Britain to this country at lower duties than the products of other countries. Moreover, no other country is going to raise much of a fuss about this favored nation business. For a long time that clause has prevented favorable action upon measures designed to promote American shipping which provided discriminating duties in favor of goods carried in American ships.

Once let nations abrogate the favored nation clause by reason of our agreement with Canada and the shipping discrimination will be pushed forward with vigor.

Reverence For the Dead.

The Bailey-Williams debate developed great reverence on the part of both these senators for the long departed Democrats. Every Democrat was first or last brought forward to prove the contention of both disputants. Jefferson, Jackson, Van Buren, Calhoun and all the other distinguished men of the past who had anything to do with the tariff were marshaled forth to prove that tariff for revenue on everything was right and that free raw materials were also right at times.

While it was all very interesting it showed that the men of half a century ago were just as inconsistent on the tariff question as the men of today. As nearly every man in public life now has a different view of the tariff than he had even ten years ago it is almost useless to bring forward the men of the past as experts.

Vale Commissions.

If the monetary commission, with its long list of ex-senators and ex-representatives on the payroll, should actually be abolished it would not be strange to see other useless commissions discontinued. An inquiry has been started about these commissions, and it has been found that they have not been doing very much.

The Canadian boundary commission, created apparently to take care of certain lame ducks, has been in existence since March 4 and has never held a meeting. Nearly everything that is done by these commissions could be performed by congressional committees or by men in the executive departments.

Courage of His Convictions.

Senator Gore was talking about how much cheaper he could buy clothing abroad than in this country. "I am going abroad this summer," he said, "and I am going to stock up. I am a free trader and so have no conscientious scruples about buying goods abroad and bringing them home with me for my own use."

Thousands of Americans who are not free traders also take advantage of foreign markets to buy their clothing.

Softens It.
The way of the transgressor is hard, but then he generally has pneumatic tires on his automobile.—Puck.

CHARLES M. HAYS.

Resigns as President
of Central Vermont.

PRESIDENT HAYS RESIGNS

E. H. Fitzhugh Elected Head of Central
Vermont.

Montreal, July 29.—It is announced here that the directors of the Central Vermont railway have accepted the resignation of President Charles M. Hays. E. H. Fitzhugh, first vice president of the Grand Trunk railway, has been elected to lead the Central Vermont, while Mr. Hays remains as chairman of the board.

PREMIUM ON PANAMA BONDS

Government Receives \$1,288,204.69
in Excess of Face Value.

Washington, July 29.—The government receives \$1,288,204.69 in premiums on its recent \$50,000,000 issue of 3 per cent Panama bonds. The average price paid by bidders was 102.5764, a figure slightly below that at which the securities now are being quoted in open market. The highest price paid to the government was 105.50 and the lowest was 102.2167.

WILL OPPOSE SLASH
IN EXPRESS RATESLeading Railroads Preparing to
Combat Any Reduction.

Chicago, July 29.—Leading railroads throughout the country are preparing to combat the widespread demand for a general slash in the express rates.

The position of the railroads, which heretofore has been a subject of speculation, was made clear at the second day's hearing on express charges and express companies' methods before the subcommittee of railroad commissioners representing the National Association of Railroad Commissioners.

P. S. Eustis, passenger traffic manager of the Chicago, Burlington and Quincy railroad, said that his company would resist all attempts to force a lower scale of prices on the express carriers. Representatives of other roads also said they would fight the attempt to cut the rates.

"This agitation about express rates is a serious matter," said Mr. Eustis. "It looks as if the express companies are trying to throw it all onto the railroads. Our company proposes to go into the express rate question on two grounds, one pertaining to the reasonableness of rates. If we can show that the express service is two and one-half times better than the freight service and that the express rate is only one and one-half times the freight rate the commission will be compelled to consider the proposition from that viewpoint."

Reports were read to show that the Great Northern Express company made a profit of 90 per cent during the fiscal year ending June 30, 1909.

The investigating committee adjourned and will continue its hearings in Chicago Aug. 15.

TO CONFER ON RATE DECISION

Transcontinental Road Officials Will
Meet in Chicago Aug. 3.

Chicago, July 29.—Officials of all transcontinental railroads are invited to attend a conference to be held here Aug. 3 for the purpose of discussing the effect of the interstate commerce commission's recent decision in the intermountain rate cases, which provides for a substantial reduction in freight charges to points in the territory lying between Denver and the Pacific coast.

Statements issued recently by railroad officials indicate that the federal commerce court will be asked to review the decision.

Accepting the Inevitable.

Wonderful are the Hindus for accepting the inevitable. Tell one of these that he must take castor oil, and he will drain the oleaginous cup to the dregs and smack his lips. Tell him that his leg must be amputated, and he will present the limb for dismemberment and smile as he sees it severed. Tell him that he is to be hanged, and with no touch of emotion whatever he will reply, "Jo hookim" ("whatever is ordered"), just as if he had been told that he must have his corns cut.—Blackwood's Magazine.

TWO ASPIRANTS
GIVE EVIDENCE

MODUS VIVENDI IN MOROCCO

Spanish Premier Outlines Plan to Prevent
Clashes.

Madrid, July 29.—Premier Canalejas outlined the main features of the Franco-Spanish modus vivendi entered into to prevent clashes in the vicinity of Alcazar, Morocco, between Moorish and Spanish troops.

The agreement defines a line around the city on their sides on which Spanish and Moorish troops must keep. It also stipulates that diplomats and officers passing through the Alcazar region on their way to Fez are entitled to carry arms and have a small escort, but that the ordinary travelers shall require a special passport. In addition Spain agrees not to enlist deserters from the Moorish army for police duty.

Could Not Bear Disgrace.

Lansing, Mich., July 28.—Following the discovery that there was an alleged shortage of \$3,500 in the students' fund entrusted to his care Luther E. Jenison, fifty-five years old, a check in the secretary's office at the Michigan agricultural college, committed suicide.

For Reciprocity With Mexico.

Washington, July 29.—Reciprocity with Mexico similar to Canadian reciprocity is proposed in a resolution introduced by Representative Burleson of Texas, calling on President Taft immediately to start negotiations with Mexico "looking to freer commerce between the two countries."

Chile to Build Submarines.

Seattle, Wash., July 29.—Contracts for the construction of two submarines for Chile have been forwarded to the Moran company of Seattle. The destroyers will be delivered to Chile within a year and will cost \$1,000,000.

Mason and Stringer Before Lorimer
Committee.

NEITHER SHEDS MUCH LIGHT

Republican and Democratic Candidates for the Senate Unable to Say
How Lorimer Defeated Them, but
Each Makes Valuable Contributions
to the Story of How Politics Are
Played in Illinois.

Washington, July 29.—Two senatorial aspirants from Illinois, William E. Mason, a Republican, and Lawrence B. Stringer, a Democrat, were on the stand before the senate Lorimer committee. Neither threw much light on the methods by which William Lorimer defeated them for the senatorial toba, but each made valuable contributions to the story of how the political game is run in Illinois.

In an optimistic way former Senator Billy Mason told how the senatorial bee buzzed around him so long that he had developed a chronic case of senatorial ambition. Pessimistic and disheartened the Democratic candidate for senator in Illinois in 1909 expressed the opinion that his party in Illinois lacked cohesive force generally.

Mr. Stringer told of his fight "in splendid isolation" in the Illinois legislature for election to the senate and of his never failing hope that he would land in the senate by an "accident." He gave some testimony about a "fourteen club" reputed to have been in the process of organization at one time to elect Hopkins to the senate by the use of money and mentioned the name of Charles E. Luke as a Democratic member of the legislature who said he had been invited to become a member.

Just how it happened that thirty-three Democrats voted for Lorimer, making "the Democratic party an adjunct to a faction of the Republican party," Mr. Stringer testified he did not know, although he said that he had an opinion, which the committee did not ask him to express. He gave the name of E. O. Phillips, a reporter for the Chicago Record-Herald, as having told him once he had heard that a fund was being raised to elect Lorimer to the senate.

Former Senator Mason said he did not support Hopkins in the legislative fight subsequent to the primaries and that possibly a month before Lorimer's election Fred E. Coyne, former postmaster at Chicago, told him Lorimer would be elected. Mason expressed doubt as to the sincerity of "Brother Lorimer's" statement about his preferring to remain in the house to going to the senate.

"It is sometimes good campaign talk to say you don't want an office," philosophized Mason.

SIXTEEN BODIES FROM MAINE

No Hope for Identification of Victims
of Explosion.

Havana, July 29.—The number of bodies that have been recovered from the wreck of the battleship Maine is officially placed at sixteen. All are now inclosed in seven metallic caskets, which lie on the main deck adjacent to the captain's cabin. There is no hope for the identification of any of them.

A search of the junior officers' quarters resulted in the discovery of several revolvers, swords and other equipment, while near the wardroom was found a notebook belonging to Lieutenant Jenkins. The contents of the book were illegible. It was identified by the initials of the lieutenant in silver on the back.

BRITISH CABINET CHANGES

Reported Rearrangement Following
Passage of Veto Bill.

London, July 29.—Immediately after the veto bill has been passed there will be an entire rearrangement of the cabinet, according to the statement of an evening paper. It is known that both Viscount Morley, first president of the council, and the Earl of Cromer, secretary of state for India, are anxious to throw off the burden on the score of illness.

The paper asserts that War Secretary Haldane and Augustine Birrell, chief secretary for Ireland, also will give up their portfolios. General Sir Rufus Daniel Jones is going to the upper house as a peer, and Home Secretary Churchill, according to the statement, is slated for the Irish secretaryship, and Lieutenant-colonel John E. B. Seely, the under secretary of state for the head of the ministry.

Freight Advances Suspended.

Washington, July 29.—Advances in class freight rates proposed by 150 railroads operating in Central Traffic association territory in the Middle West and averaging approximately 6 per cent were suspended by the interstate commerce commission until an investigation into their propriety can be conducted. The proposed tariffs were to have become effective Aug. 1. They are suspended until Nov. 29. Meantime existing rates will be in effect.

PIANO SELECTIONS Rendered By Miss Hazel Treglawny

If more than half the assessable property of the state is located within the confines of three counties there is nothing remarkable in the statement that three counties pay one half the taxes of the state.

The farmers are to be organized by P. V. Collins "for political protection of agricultural interests." In other words Collins is going to try and farm the farmers, and all on account of the reciprocity pact which he went to Washington to turn down but failed. The farmers paid the freight.

The press dispatches bring the information that a large quantity of politicians and money will be transferred from the national capitol of this country to points in Canada where they and it can do the most work in defeating the reciprocity pact. Can it be possible that our Canadian cousins will allow American money to influence their views on the subject.

The people who think they can make their money go farther by sending it out of town are correct—as far as distance is concerned. When it comes to purchasing power, however, the idea is a false one if the purchaser will keep tab on the purchase the year round. The article offered as bait is but a delusion to induce the habit.

If you are the "kitty" in a poker game you cannot be held responsible for the losses of a player in the game according to a supreme court decision. They do say that the "kitty" gets all the money if the game is kept up long enough, and the idea may be that a man who loses his money in a gambling game should have no redress, at least from the "kitty". By the way have you ever seen one of the animals.

A man is visiting various cities in the western part of the state organizing Owl lodges, and then decamping with the proceeds without giving the Owls a fly for their money. At Moorhead this "fly by night" organizer got all the bartenders in the city as charter members of his Owl fraternity at \$5 per owl and then glided softly out of town, but some of the would be fraternity men console themselves with the thought that they got most of their money back over the bar before the organizer left town.

Frank Eddy is being "mentioned" as a candidate for congress to succeed Congressman Lindbergh in the Sixth district. Eddy does not deny or affirm the rumor when being questioned by his home paper, the Sauk Center Herald, as to the truth of the published reports, but adds "should I make up my mind to run for any office I will inform the public at the proper time and there will be something doing." The people remember well when Frank used to run for office, everybody knew it, and the wise ones do say that he has not been asleep all the time since he ceased to be a congressman, and has added to his knowledge of "how to get votes" to that extent that the other aspirants would fall before his onslaught like grain before a reaper. Probably Eddy has heard that Lindbergh is going to succeed Knute Nelson in the United States senate.

Frank Day came back to Minnesota from his home in Missoula, Montana, to attend his daughter's wedding and while here he straightened out the democratic affairs of the state. Incidentally he elected Ole Saenger to the United States senate and picked Hammond for governor of Minnesota. Day still owns his paper at Fairmont and the wise ones do say that besides selecting a president to succeed Taft, a senator to fill Knute Nelson's shoes, a governor who will take hold of the reins now held by Eberhart that he is looking to the vacancy to be caused by Congressman Hammond's candidacy with longing eyes and will endeavor to so shape things as to come back and go to congress as the democratic choice in that district. Frank always gives the newspaper boys of the twin cities something to talk about when he blows into town—if it doesn't amount to anything.

Governor Eberhart has converted the editor of the Anoka Union and Brother Pease, who has heretofore given the head of the state government particular fits, breaks forth in the following language: "There was a time when I didn't have much time for Governor Eberhart. I was not at all prepossessed in his favor. I looked upon him as a creature of uncommon good luck. But watching his moves, his efforts towards upbuilding the state, his good nature, his endeavors to improve conditions, and I'm ready to confess a change of mind. Another factor which has produced the change is to hear a lot of two by four politicians running the man down whenever they can buttonhole a voter to listen to their refutation. To my mind, Governor Eberhart has done good, and I question very much if any but him will be the governor elected a year from next November. The people of this state are pretty wise and they know which side to spread their bread with butter." We still refuse to believe that Granville has accepted a position on the governor's staff, even if his figure would look good in one of those gold braid affairs.

SATURDAY, JULY 29, 1911.

ONE MAIL DELIVERY

Beginning Monday, July 31, and continuing for one week there will be but one mail delivery daily in Northeast and Southeast Brainerd districts covered by carriers 4 and 6.

Crow Wing county should have an exhibit at the state fair this year.

The Texas democrats were given a terrible shock when it was first reported that their state had voted to become dry. Later information had the tendency to reduce the tension.

The extra session talk will not down, even Speaker Dunn of the last house is agitating the move. Some of the politicians in the limelight seem to be afraid of the results if the movement gains enough velocity to justify the call.

An eastern man installed a telephone in his residence and the first message he received over it was the news that he had fallen heir to a vast fortune—the telephone company has been busy installing phones in the residences of that town ever since.

FIRST NATIONAL BANK

If more than half the assessable property of the state is located within the confines of three counties there is nothing remarkable in the statement that three counties pay one half the taxes of the state.

The farmers are to be organized by P. V. Collins "for political protection of agricultural interests." In other words Collins is going to try and farm the farmers, and all on account of the reciprocity pact which he went to Washington to turn down but failed. The farmers paid the freight.

The press dispatches bring the information that a large quantity of politicians and money will be transferred from the national capital of this country to points in Canada where they and it can do the most work in defeating the reciprocity pact. Can it be possible that our Canadian cousins will allow American money to influence their views on the subject.

The people who think they can make their money go farther by sending it out of town are correct—as far as distance is concerned. When it comes to purchasing power, however, the idea is a false one if the purchaser will keep tab on the purchase the year round. The article offered as bait is but a delusion to induce the habit.

If you are the "kitty" in a poker game you cannot be held responsible for the losses of a player in the game according to a supreme court decision. They do say that the "kitty" gets all the money if the game is kept up long enough, and the idea may be that a man who loses his money in a gambling game should have no redress, at least from the "kitty". By the way have you ever seen one of the animals.

A man is visiting various cities in the western part of the state organizing Owl lodges, and then decamping with the proceeds without giving the Owls a fly for their money. At Moorhead this "fly by night" organizer got all the bartenders in the city as charter members of his Owl fraternity at \$5 per owl and then glided softly out of town, but some of the would be fraternity men console themselves with the thought that they got most of their money back over the bar before the organizer left town.

Frank Eddy is being "mentioned" as a candidate for congress to succeed Congressman Lindbergh in the Sixth district. Eddy does not deny or affirm the rumor when being questioned by his home paper, the Sauk Center Herald, as to the truth of the published reports, but adds "should I make up my mind to run for any office I will inform the public at the proper time and there, will be something doing." The people remember well when Frank went to run for office, everybody knew it, and the wise ones do say that he has not been asleep all the time since he ceased to be a congressman, and has added to his knowledge of "how to get votes" to that extent that the other aspirants would fall before his onslaught like grain before a reaper. Probably Eddy has heard that Lindbergh is going to succeed Knute Nelson in the United States senate.

Frank Day came back to Minnesota from his home in Missoula, Montana, to attend his daughter's wedding and while here he straightened out the democratic affairs of the state. Incidentally he elected Ole Sageng to the United States senate and picked Hammond for governor of Minnesota. Day still owns his paper at Fairmont and the wise ones do say that besides selecting a president to succeed Taft, a senator to fill Knute Nelson's shoes, a governor who will take hold of the reins now held by Eberhart that he is looking to the vacancy to be caused by Congressman Hammond's candidacy with longing eyes and will endeavor to so shape things as to come back and go to congress as the democratic choice in that district. Frank always gives the newspaper boys of the twin cities something to talk about when he blows into town—if it doesn't amount to anything.

Governor Eberhart has converted the editor of the Anoka Union and Brother Penase, who has heretofore given the head of the state government particular fits, breaks forth in the following language: "There was a time when I didn't have much time for Governor Eberhart. I was not at all prepossessed in his favor. I looked upon him as a creature of uncommon good luck. But watching his moves, his efforts towards upbuilding the state, his good nature, his endeavors to improve conditions, and I'm ready to confess a change of mind. Another factor which has produced the change is to hear a lot of two by four politicians running the man down whenever they can buttonhole a voter to listen to their refutation. To my mind, Governor Eberhart has done good, and I question very much if any but him will be the governor elected a year from next November. The people of this state are pretty wise and they know which side to spread their bread with butter." We still refuse to believe that Granville has accepted a position on the governor's staff, even if his figure would look good in one of those gold braid affairs.

SPECIAL SUNDAY FOR ST. CLOUD

Will Leave Brainerd 12:15 P. M.
Sunday of Brainerd-St. Cloud
Baseball Game

THE ROUND TRIP FARE \$2.50

Will be the First Game Played at
Opening of St. Cloud's New
Grand Stand

After much negotiation the special train to St. Cloud for the Brainerd-St. Cloud baseball game on Sunday has been secured and the train will leave Brainerd at 12:15 P. M. The fare has been placed at \$2.50 for the round trip.

Manager D. A. Peterson has been put to some trouble making the necessary arrangements. Following the instructions received at the time the last special was secured Mr. Peterson gave the railway company over two weeks notice that a special train was desired for this Sunday and notified them that the required number of passengers could be secured and that a two cent rate was desired.

On July 26 Mr. Mosier, the local agent received the following telegram from A. M. Cleland, general passenger agent: "Cannot authorize any special rates."

Mr. Peterson then wrote Mr. Cleland such a warm letter that the paper almost curled up from the intensity of the thoughts conveyed. After fulfilling all requirements and getting a large crowd for the event and thoroughly advertising it the company did not respond as was expected.

The following letter was then received from Mr. Cleland:
"Mr. D. A. Peterson,
Brainerd City Baseball Club,
Brainerd, Minn.

Dear Sir:

I have your letter of July 27 in regard to special train to St. Cloud and return Sunday, July 30.

"I regret that it has not been possible for us to advise earlier what we could do in the matter. I have today advised our agent at Brainerd that on proper guarantee that there would be one hundred passengers on the train between Brainerd and St. Cloud in both directions, we will run special Brainerd to St. Cloud and return Sunday, July 30 and make a rate of a fare and a third for the round trip."

The occasion at St. Cloud will be memorable because it will be the opening of the new grand stand recently completed. It is estimated to hold 1,200 people and the manager of the St. Cloud team expects a crowd of from 1,500 to 2,000 people to see the game.

It is not known at present about the band but as they accompanied the team to Royalton they may also make the trip to St. Cloud.

"There is only one thing I wish," said Mr. Peterson, "and that is that our team wins the game."

Roy, the great Indian pitcher who made such a splendid showing in last Sunday's game, will pitch for Brainerd. The boys are assured of victory providing St. Cloud has not made any changes or additions to its usual team.

Cards of Thanks

At the last meeting of the Women's Union Label League a motion carried to extend a vote of thanks to the machinists and the molders for their kindness in giving the league the proceeds of the game of baseball played for their benefit. Thanks are also extended to Unity band for furnishing the music and contributing to make the event a success.

MRS. FRANK DILLIE,
Secretary.

PROGRESS OF PREPARATION

Great Progress is Being Made in the
Preparations for the Coming
State Fair

As Sept. 4th grows nearer there is increased activity in all departments of the Minnesota State Agricultural society, the officers of which are preparing to present the biggest and best fair and exposition ever seen anywhere.

Practically ten thousand premium lists have already been sent out and the favor with which they have been received is gratifying to the officers and directors and presages record breaking exhibits in every department. A larger number of entries than has ever before been received at this time of the year has already been sent in.

Entries from all over the state and outside have already been received for the agricultural county fair and school exhibits. In the horses, cattle, sheep and swine departments the most successful live stock breeders of the United States and Canada have signified their intention of being represented.

Chicken fanciers throughout the Northwest are showing unusual interest in this year's poultry show. The majority of the manufacturers of machinery and farm implements have already expressed a desire for space and many of them have secured their location on the grounds. Two or three new permanent exhibit buildings will be erected by machinery companies.

Word from all parts of the state and the Northwest indicates a greater interest than ever before in the Minnesota fair and it is hard to foresee any event that will prevent the 1911 exposition distancing all of its predecessors.

BUYS BAKER MEAT MARKET

G. S. McCulloch Buys Shop of H. H. Baker, Taking Possession
August 20

G. S. McCulloch has purchased the H. H. Baker meat market and will take possession on August 20. With Mr. McCulloch will be associated his two sons, Lawrence and George. Mr. McCulloch is well known as the former superintendent of the county poor farm. He has had some experience in the meat business, having worked in a meat market many years ago. Lawrence McCulloch, for the past four years, has worked in the meat department of the H. C. Miller department store in Staples. Having raised many cattle and being an experienced farmer, Mr. McCulloch will know good cattle when he sees them.

H. H. Baker leaves his market after 23 years business in this city. He was first associated with Charles E. Peabody under the firm name of Peabody & Baker, doing business under this partnership for 12 years. Later he bought out Mr. Peabody and continued the market alone.

His shop has always had the reputation of being clean, sanitary and a delight to the eye of any housewife making her purchases there. The policy of the establishment was to sell good meat and to display it attractively. Many improvements were made by Mr. Baker all with an eye to bettering the service to his customers.

Mr. McCulloch will continue this "Baker" method and will add improvements to some of the fixtures. His friends wish him success in his new undertaking and at the same time wish Mr. Baker success and prosperity in whatever new line of work he may hereafter engage in.

FLYING FINANCIER FOUND AT FARGO

Special to Dispatch:—

Fargo, N. D., July 30, 1911.—C. W. or W. H. Blake, as he termed himself, has been located at Fargo where he is serving 40 days in jail.

When through at Fargo it is said Wadena wants him and by that time Brainerd, Deerwood, Crosby and Aitkin may get him.

ACTIVITY AT MINES

Kennedy Mine Will be Worked to its
Utmost Capacity Until the Close
of the Season of 1912

The Cuyuna Range Miner says: "The Kennedy mine of Cuyuna will, from now on, and up to the close of navigation 1912, be worked to its utmost capacity. The Rogers-Brown Ore Co. have contracted for a large ore tonnage and more men have already been put to work in the mine. About 300 men are now employed. During the winter months it is expected that 400 men will be employed and this will be increased to 500 by next spring.

This statement was given out by the officials of the mining company and came as a pleasing surprise after the rumor which had been circulated relative to the closing of the Kennedy mine.

The business men and citizens have always had faith in the future of the town, and this relieves all doubt as to what the town will be.

It seems now, almost certain, that the Kennedy mine will be the largest on the Cuyuna range. This season the mine has been shipping on the average about 100 cars per day of high grade ore to the head of the lakes, although this is the first season the mine has been on the shipping list.

The following letter was received by the editor from Mr. H. J. Kruse, superintendent of the Rogers-Brown Ore Co., which will further explain the true situation:

"The past two or three weeks several rumors have been brought to my attention to the effect that the Kennedy mine was to close down soon. I wish to say that the rumor is absolutely without foundation as the Rogers-Brown Ore Co., has contracted for a large tonnage for the coming season of 1912 from the Kennedy mine. The tonnage which they have contracted for, means that the Kennedy mine will have to be worked to its utmost capacity during the winter months and also up to the close of navigation 1912. I wish you would kindly publish a statement giving out the details above, in order that the people in Cuyuna may rest easy."

Carpenter Work

The secretary of the board of education, L. F. Hohman, will receive bids up to 7 o'clock P. M. July the 31st, 1911, at his office 618 Front street, Brainerd, Minn., for the laying of the third floor, stage and dressing rooms of the Washington building, as per plans and specifications on file at his office. All labor and material to be furnished by the contractor.

Board reserves the right to reject any or all bids.

L. F. HOHMAN,
444 Secretary Board of Education.

INSTALL STREET LIGHTNING JULY 29

Pres. Dunn Makes This Announcement at Last Night's Water and Light Board

NEW WATER MAINS ORDERED

Bids Will be Received For Coal at the
Next Board Meeting—Other
Business Done

The most important piece of news at the meeting of the water and light board last night was the announcement made by President M. T. Dunn that work on the installation of street lights would commence on July 29. Fifty arc lights are in position in various parts of the city and an expert is now required to complete the station connections. Mr. Dunn stated that this Westinghouse expert expected to be in Brainerd this Saturday.

All the commissioners were present at the board meeting and a large number of routine bills were allowed and ordered paid.

Two blocks of four inch water mains were ordered in on Third avenue between Prescott and Pearl streets as soon as the car load of pipe now on the way arrives in the city.

Owing to additional discounts allowed by the Westinghouse electric company the board will be able after August 1st to sell the latest style of electric flat irons for \$3.50 each.

All consumers wishing to have lights installed should file their applications with the secretary of the water and light board before September 1. This is done to avoid the additional expense necessary digging and handling frozen ground.

A letter was received from S. A. Stanley wherein he offered to deliver 100 cords of jack pine edgings to the pump house at \$2.25 per cord. The matter was laid over until the next meeting.

The regular monthly requests for supplies were allowed and the secretary was instructed to take charge of these in the usual manner.

The secretary was instructed to notify the different coal dealers of the city that bids for furnishing fuel for the coming year would be received at the next board meeting in August.

THREE COLOR HYDRANTS

Explanation Made of the White, Red and Green Hydrants so Painted
By the City

Recently the water and light board has painted the street hydrants of the city a plain white, brilliant red and a dark green and people wondered why the this color scheme was selected. As there are three commissioners on the water and light board people said there were necessarily three colors. No one had any doubt where to place the shade of Emerald green and bestowed it on the worthy president, M. T. Dunn. But they were nonplussed when it came to placing the red and white.

This part of the mystery has now been cleared up. Red and white are the colors of Denmark and Denmark was the native home of Wm. Nelson, the secretary of the water and light board. In this unique way the three colors on each hydrant represent the secretary and the president.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous surfaces. The Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by the Catarrh Cure. Send for circulars, free. F. J. CHENNEY & CO., Toledo, O. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

BOOKLET BOOMS MINNESOTA

A Forty-Page Pamphlet is Being
Widely Distributed by Northern
Pacific

The Northern Pacific railway has just issued a new booklet under the title of "What Minnesota Wants to Tell You." It consists of forty pages and cover, and carries illustrations of the various products of the state. Chapters on Minnesota cities, industries, resources, climate, university, schools and summer resorts are all covered with terse, convincing text; and there is a special chapter about the state fair, another about the public lands in the state, and still another in regard to homestead lands.

Fifty thousand copies of the booklet will be distributed this fall at the various land expositions, from the Northern Pacific's Minnesota exhibit car, and through the numerous agencies of the company.

Starting Results Obtained by Senpina New York—Thousands are taking advantage of the generous offer made by The Woodworth Co., 1161 Broadway, New York City, requesting an experimental package of Senpina, the great discovery for Asthma, Hay Fever, Bronchitis, and Catarrh, which is mailed free of charge to all who write for it. It is curing thousands of the most stubborn cases. It makes no difference how long you have been suffering or how severe the climatic conditions are where you live, Senpina will cure you.

If you have experimented with other treatments and have failed to find a cure do not be discouraged, but send for a trial of this wonderful truly meritorious remedy which is a scientific compound discovered by a professor of Vienna University, and is being recommended by thousands.

TO MAKE ALTERATIONS

White Brothers Have the Contract
Making Changes to Front of
Odd Fellow Block

White Brothers have the contract making alterations to the front of the Odd Fellow block which will be commenced just as soon as the post office department leaves the building. It is hoped to have everything in readiness for the new tenant by September 1.

The changes embrace the addition of a plate glass front at the northeast corner of the building, extending from the street to a point above the end of the basement stairway. The door now used as the main entrance to the postoffice will be eliminated.

The entrance in the altered block will be near the stairway which one ascends to reach the hall above. By these changes the occupant of the store room on the main floor where the post office now is will have an abundance of light and will have a location unexcelled for doing business in.

DROWNED DURING DELIRIUM

J. H. Vallmer, of Glendive, Mont.,
Dies While on Way to N. P.
Hospital at Brainerd

J. H. Vallmer, of Glendive, Mont., was discovered drowned in the Heart river near Mandan, N. D., this week. He had been employed by the Northern Pacific railway at Glendive, Mont. where he was engineer on a steam shovel.

He was enroute to the Northern Pacific hospital of this city, being ill with typhoid fever. Apparently he had left the train at Mandan and wandered up the tracks. Whether he went in bathing or whether he was temporarily out of his head and tried to commit suicide will never be known. He was drowned in 16 inches of water.

Notice

Klein & Thiennes have disposed of their meat market and all their book accounts have been placed at the Brainerd State bank for collection. 48t3

M. B. A. Notice

All members of the M. B. A. are requested to meet at M. B. A. hall at 1:30 Monday afternoon to attend the funeral of our late sister, Mrs. Anna Bergstrom.

CHURCH MEN TO MEET AT DULUTH

Sixth Missionary Department of Episcopal Church to Convene Early
in September

R. R. WISE A LAY DELEGATE

It Will be the Most Important Gathering the Church Has Ever
Held in Duluth

The most important ecclesiastical assembly of the Episcopal church ever held in Duluth will take place on the first three days in September, when the Sixth Missionary department will meet in council.

The department includes eleven dioceses in the states of Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Montana, Wyoming and Colorado. The council is composed of the bishops and of five clerical and five lay delegates from the several dioceses. The Woman's auxiliary, which will hold a convention at the same time, will be fully represented by officers from the diocesan organizations.

A Sunday school conference and a meeting of the Brotherhood of St. Andrew will also be part of the program. The president of the conference will be Rt. Rev. Leigh Richmond Brewer, D. D., bishop of Montana, he being the senior bishop in time of consecration.

The diocese of Duluth will be represented in the council by ten clerical and ten lay delegates as elected at the annual convention at Brainerd, R. R. Wise being the lay delegate representing this city.

In addition to the bishops of the various departments other prominent church men have promised to be present. They include:

The presiding bishop of the American church, Rt. Rev. Daniel E. Tuttle, D. D., bishop of Missouri.
The primate of the Canadian church the most reverend the archbishop of Rupert's Land.

The president of the board of missions, Rt. Rev. Arthur S. Lloyd, D. D., of New York City.

Bishop C. C. Grafton, D. D., and Bishop R. Weller, D. D., of Fon du Lac.

A Peek Into His Pocket

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut wound bruise or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at all druggists.

A POPULAR VERDICT

Based on Evidence of Brainerd People

Grateful thousands tell it—How weak backs are made strong Weak kidneys made well—Urinary disorders corrected. Brainerd people add their testimony.

They gladly praise Doan's Kidney Pills.

For quick relief and lasting cures. Brainerd evidence is now complete. Brainerd testimony is confirmed; Reports of early relief substantiated.

Cures doubly proved by test of time.

Let a Brainerd citizen speak. Mrs. H. Langslow, 409 Ninth St., Brainerd, Minn., says: "We have used Doan's Kidney Pills in our family and have found them very effective in relieving pain and lameness across the loins and trouble with the kidney secretions. In 1908 a member of my family procured a supply of Doan's Kidney Pills from a local drug store and was relieved of an attack of lumbago that had resisted other remedies. We publicly endorsed Doan's Kidney Pills at that time and are now willing to confirm our former statement."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

SPECIAL SUNDAY FOR ST. CLOUD

Will Leave Brainerd 12:15 P. M.
Sunday of Brainerd-St. Cloud
Baseball Game

THE ROUND TRIP FARE \$2.50

Will be the First Game Played at
Opening of St. Cloud's New
Grand Stand

After much negotiation the special train to St. Cloud for the Brainerd-St. Cloud baseball game on Sunday has been secured and the train will leave Brainerd at 12:15 P. M. The fare has been placed at \$2.50 for the round trip.

Manager D. A. Peterson has been put to some trouble making the necessary arrangements. Following the instructions received at the time the last special was secured Mr. Peterson gave the railway company over two weeks notice that a special train was desired for this Sunday and notified them that the required number of passengers could be secured and that a two cent rate was desired.

On July 26 Mr. Mosier, the local agent received the following telegram from A. M. Cleland, general passenger agent: "Cannot authorize any special rates."

Mr. Peterson then wrote Mr. Cleland such a warm letter that the paper almost curled up from the intensity of the thoughts conveyed. After fulfilling all requirements and getting a large crowd for the event and thoroughly advertising it the company did not respond as was expected.

The following letter was then received from Mr. Cleland:

"Mr. D. A. Peterson,
Brainerd City Baseball Club,
Brainerd, Minn.

Dear Sir:

I have your letter of July 27 in regard to special train to St. Cloud and return Sunday, July 30.

"I regret that it has not been possible for us to advise earlier what we could do in the matter. I have today advised our agent at Brainerd that on proper guarantee that there would be one hundred passengers on the train between Brainerd and St. Cloud in both directions, we will run special Brainerd to St. Cloud and return Sunday, July 30 and make a rate of a fare and a third for the round trip."

The occasion at St. Cloud will be memorable because it will be the opening of the new grand stand recently completed. It is estimated to hold 1,200 people and the manager of the St. Cloud team expects a crowd of from 1,500 to 2,000 people to see the game.

It is not known at present about the band but as they accompanied the team to Royalton they may also make the trip to St. Cloud.

"There is only one thing I wish," said Mr. Peterson, "and that is that our team wins the game."

Roy, the great Indian pitcher who made such a splendid showing in last Sunday's game, will pitch for Brainerd. The boys are assured of victory providing St. Cloud has not made any changes or additions to its usual team.

Cards of Thanks

At the last meeting of the Women's Union Label League a motion carried to extend a vote of thanks to the machinists and the molders for their kindness in giving the league the proceeds of the game of baseball played for their benefit. Thanks are also extended to Unity band for furnishing the music and contributing to make the event a success.

MRS. FRANK DILLIE,
Secretary.

PROGRESS OF PREPARATION

Great Progress is Being Made in the
Preparations for the Coming
State Fair

As Sept. 4th grows nearer there is increased activity in all departments of the Minnesota State Agricultural society, the officers of which are preparing to present the biggest and best fair and exposition ever seen anywhere.

Practically ten thousand premium lists have already been sent out and the favor with which they have been received is gratifying to the officers and directors and presages record breaking exhibits in every department. A larger number of entries than has ever before been received at this time of the year has already been sent in.

Entries from all over the state and outside have already been received for the agricultural county fair and school exhibits. In the horses, cattle, sheep and swine departments the most successful live stock breeders of the United States and Canada have signified their intention of being represented.

Chicken fanciers throughout the Northwest are showing unusual interest in this year's poultry show. The majority of the manufacturers of machinery and farm implements have already expressed a desire for space and many of them have secured their location on the grounds. Two or three new permanent exhibit buildings will be erected by machinery companies.

Word from all parts of the state and the Northwest indicates a greater interest than ever before in the Minnesota fair and it is hard to foresee any event that will prevent the 1911 exposition distancing all of its predecessors.

BUYS BAKER MEAT MARKET

G. S. McCulloch Buys Shop of H. H. Baker, Taking Possession
August 20

G. S. McCulloch has purchased the H. H. Baker meat market and will take possession on August 20. With Mr. McCulloch will be associated his two sons, Lawrence and George. Mr. McCulloch is well known as the former superintendent of the county poor farm. He has had some experience in the meat business, having worked in a meat market many years ago. Lawrence McCulloch, for the past four years, has worked in the meat department of the H. C. Miller department store in Staples. Having raised many cattle and being an experienced farmer, Mr. McCulloch will know good cattle when he sees them.

H. H. Baker leaves his market after 23 years business in this city. He was first associated with Charles E. Peabody under the firm name of Peabody & Baker, doing business under this partnership for 12 years. Later he bought out Mr. Peabody and continued the market alone.

His shop has always had the reputation of being clean, sanitary and a delight to the eye of any housewife making her purchases there. The policy of the establishment was to sell good meat and to display it attractively. Many improvements were made by Mr. Baker all with an eye to bettering the service to his customers.

Mr. McCulloch will continue this "Baker" method and will add improvements to some of the fixtures. His friends wish him success in his new undertaking and at the same time wish Mr. Baker success and prosperity in whatever new line of work he may hereafter engage in.

FLYING FINANCIER FOUND AT FARGO

Special to Dispatch:—

Fargo, N. D., July 30, 1911.—C. W. or W. H. Blake, as he termed himself, has been located at Fargo where he is serving 40 days in jail.

When through at Fargo it is said Wadena wants him and by that time Brainerd, Deerwood, Crosby and Aitkin may get him.

ACTIVITY AT MINES

Kennedy Mine Will be Worked to its
Utmost Capacity Until the Close
of the Season of 1912

The Cuyuna Range Miner says: "The Kennedy mine of Cuyuna will, from now on, and up to the close of navigation 1912, be worked to its utmost capacity. The Rogers-Brown Ore Co. have contracted for a large ore tonnage and more men have already been put to work in the mine. About 300 men are now employed. During the winter months it is expected that 400 men will be employed and this will be increased to 500 by next spring.

This statement was given out by the officials of the mining company and came as a pleasing surprise after the rumor which had been circulated relative to the closing of the Kennedy mine.

The business men and citizens have always had faith in the future of the town, and this relieves all doubt as to what the town will be.

It seems now, almost certain, that the Kennedy mine will be the largest on the Cuyuna range. This season the mine has been shipping on the average about 100 cars per day of high grade ore to the head of the lakes, although this is the first season the mine has been on the shipping list.

The following letter was received by the editor from Mr. H. J. Kruse, superintendent of the Rogers-Brown Ore Co., which will further explain the true situation:

"The past two or three weeks several rumors have been brought to my attention to the effect that the Kennedy mine was to close down soon. I wish to say that the rumor is absolutely without foundation as the Rogers-Brown Ore Co., has contracted for a large tonnage for the coming season of 1912 from the Kennedy mine. The tonnage which they have contracted for, means that the Kennedy mine will have to be worked to its utmost capacity during the winter months and also up to the close of navigation 1912. I wish you would kindly publish a statement giving out the details above, in order that the people in Cuyuna may rest easy."

Carpenter Work

The secretary of the board of education, L. F. Hohman, will receive bids up to 7 o'clock P. M. July the 31st, 1911, at his office 618 Front street, Brainerd, Minn., for the laying of the third floor, stage and dressing rooms of the Washington building, as per plans and specifications on file at his office. All labor and material to be furnished by the contractor.

Board reserves the right to reject any or all bids.

L. F. HOHMAN,

444 Secretary Board of Education.

INSTALL STREET LIGHTNING JULY 29

Pres. Dunn Makes This Announcement at Last Night's Water and Light Board

NEW WATER MAINS ORDERED

Bids Will be Received For Coal at the
Next Board Meeting—Other
Business Done

The most important piece of news at the meeting of the water and light board last night was the announcement made by President M. T. Dunn that work on the installation of street lights would commence on July 29. Fifty are lights are in position in various parts of the city and an expert is now required to complete the station connections. Mr. Dunn stated that this Westinghouse expert expected to be in Brainerd this Saturday.

All the commissioners were present at the board meeting and a large number of routine bills were allowed and ordered paid.

Two blocks of four inch water mains were ordered in on Third avenue between Prescott and Pearl streets as soon as the car load of pipe now on the way arrives in the city.

Owing to additional discounts allowed by the Westinghouse electric company the board will be able after August 1st to sell the latest style of electric flat irons for \$3.50 each.

All consumers wishing to have lights installed should file their applications with the secretary of the water and light board before September 1. This is done to avoid the additional expense necessary digging and handling frozen ground.

A letter was received from S. A. Stanley wherein he offered to deliver 100 cords of jack pine edgings to the pump house at \$2.25 per cord. The matter was laid over until the next meeting.

The regular monthly requests for supplies were allowed and the secretary was instructed to take charge of these in the usual manner.

The secretary was instructed to notify the different coal dealers of the city that bids for furnishing fuel for the coming year would be received at the next board meeting in August.

THREE COLOR HYDRANTS

Explanation Made of the White, Red and Green Hydrants so Painted
By the City

Recently the water and light board has painted the street hydrants of the city a plain white, brilliant red and a dark green and people wondered why this color scheme was selected. As there are three commissioners on the water and light board people said there were necessarily three colors. No one had any doubt where to place the shade of Emerald green and bestowed it on the worthy president, M. T. Dunn. But they were nonplussed when it came to placing the red and white.

This part of the mystery has now been cleared up. Red and white are the colors of Denmark and Denmark was the native home of Wm. Nelson, the secretary of the water and light board. In this unique way the three colors on each hydrant represent the secretary and the president.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. No case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

CHURCH MEN TO MEET AT DULUTH

Sixth Missionary Department of Episcopal Church to Convene Early
in September

R. R. WISE A LAY DELEGATE

It Will be the Most Important Gathering the Church Has Ever
Held in Duluth

The most important ecclesiastical assembly of the Episcopal church ever held in Duluth will take place on the first three days in September, when the Sixth Missionary department will meet in council.

The department includes eleven dioceses in the states of Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Montana, Wyoming and Colorado. The council is composed of the bishops and of five clerical and five lay delegates from the several dioceses. The Woman's auxiliary, which will hold a convention at the same time, will be fully represented by officers from the diocesan organizations.

A Sunday school conference and a meeting of the Brotherhood of St. Andrew will also be part of the program. The president of the conference will be Rt. Rev. Leigh Richmond Brewer, D. D., bishop of Montana, he being the senior bishop in time of consecration.

The diocese of Duluth will be represented in the council by ten clerical and ten lay delegates as elected at the annual convention at Brainerd, R. R. Wise being the lay delegate representing this city.

In addition to the bishops of the various departments other prominent church men have promised to be present. They include:

The presiding bishop of the American church, Rt. Rev. Daniel E. Tuttle, D. D., bishop of Missouri. The primate of the Canadian church the most reverend the archbishop of Rupert's Land.

The president of the board of missions, Rt. Rev. Arthur S. Lloyd, D. D., of New York City.

Bishop C. C. Grafton, D. D., and Bishop R. Weller, D. D., of Fond du Lac.

A Peek Into His Pocket

would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut wound bruise or sore it would not soon heal," he writes, "Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and piles. 25c at all druggists."

A POPULAR VERDICT

Based on Evidence of Brainerd People

Grateful thousands tell it—How weak backs are made strong Weak kidneys made well—Urinary disorders corrected. Brainerd people add their testimony.

They gladly praise Doan's Kidney Pills.

For quick relief and lasting cures. Brainerd evidence is now complete. Brainerd testimony is confirmed. Reports of early relief substantiated.

Cures doubly proved by test of time.

Let a Brainerd citizen speak. Mrs. H. Langslow, 409 Ninth St., Brainerd, Minn., says: "We have used Doan's Kidney Pills in our family and have found them very effective in relieving pain and lameness across the loins and trouble with the kidney secretions. In 1908 a member of my family procured a supply of Doan's Kidney Pills from a local drug store and was relieved of an attack of lumbago that had resisted other remedies. We publicly endorsed Doan's Kidney Pills at that time and are now willing to confirm our former statement."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

ADDITIONAL LOCAL NEWS NOTES (Continued from page 2)

Miss Alice Hallquist and Miss Grace Carlson came from Long Lake this morning where they have been enjoying an outing at the Carlson cottage.

Prof. Hanft came from Hubert this noon where he has a pretty summer cottage. Prof. and Mrs. Hanft have been entertaining Mr. and Mrs. D. M. Clark.

Dr. and Mrs. M. J. Hart arrived today from LeRoy and are the guests of Mr. and Mrs. M. T. Dunn. They will all enjoy an outing at Walker next week.

George W. Richter, Robert J. Bannister and Glenn F. Witter, of Des Moines, Iowa, are in the city on their way to the summer resorts of northern Minnesota.

Representatives of the Hennepin Bridge Co., are in the city figuring on the plans of the new bridge to be built across the Mississippi near the dam and will probably put in a bid.

If you are fatigued, try a bottle of Old Pilsener style lager beer, it is invigorating and refreshing. Order a case from the Brainerd Brewing Co., Phone 213. 304tf

The weather report reads: "Fair tonight and Sunday." This is certainly good baseball weather and every one hopes the prediction will hold out.

Ice cream social given by the Willing Helpers of the Norwegian-Danish Lutheran church on the church lawn tonight, Saturday evening, July 29, 1911. Tickets 15 cents.

Mrs. Kate Kilpatrick, of St. Paul, is a deputy of the Ladies of the Macabees who is organizing a class of candidates to be initiated in the near future.

The Minnesota and International railway has made a noticeable improvement to its road bed near Brainerd. Gravel has been used for ballasting from Kindred street crossing to the river bridge.

Rev. W. J. Horner, of the People's Congregational church, will have charge of the evening services in the First Presbyterian church. Topic will be: "The Palace He Left." Everyone invited.

"This swatting the fly is being carried to extremes," said a well known bald headed man of this city. "The other day," said he "my wife went after a fly on my head and I got the swat and the fly escaped."

Mrs. Anna Kasia Bergstrom, died this morning of heart failure at her home, 1421 Norwood St. She leaves two sons, Joseph Arthur Schultz of this city and Louis L. Schultz, of California.

Walter H. Northrup, the mail carrier, shot a white sparrow at his home and is having the bird mounted. It had perfectly white feathers and pink eyes and appeared to be as chipper and lively as its more sedate colored brethren.

Rev. Karl A. Lundin, while at Duluth, preached last Sunday morning at the Swedish Temple and in the evening at the Bethel church in the East End. Rev. Lundin was formerly pastor of the First Swedish Baptist church of Duluth.

White Brothers have completed altering the house owned by Dr. J. L. Camp and situated immediately east of the new postoffice on Norwood St. It has been changed from a residence to a store and the store front is a very artistic piece of work.

This afternoon's train for St. Paul was so crowded that people stood in the aisles and women sat in the smoking car. And most of this was through travel. As passengers will be picked up enroute one wonders where all this three cent fare travel will find place.

Mrs. John Curo, of Hackensack, the wife of County Surveyor Curo, died at the Walker hospital July 28 after an illness of but a few days. Death was due to pneumonia, following upon other ailments. She was widely known and highly respected throughout Cass and adjoining counties. A husband and five children survive her.

The tower and tram way at the pulp mill in Northeast Brainerd at the plant of the Northwest Paper Co. was never rebuilt. Pulp is now hauled to the cars above by teams. It is believed, in the near future, that some change may be made in the tracks above when the city bridge is built, as it is planned to have the new bridge cross the tracks.

Miss Annie Sara Bock, of Eau Claire, Wis., was in the city today to see about an amateur production of some of her comedies. She makes a specialty of producing plays for the benefit of churches, lodges and other organizations. Her repertoire embraces "The County Fair", "Union Depot" and the "Gibson Family Reunion."

Among our new advertisers in this issue is the Mankato Commercial College. We commend that school to our readers, and would suggest that those who are interested send for a catalogue. It is printed in colors, and is undoubtedly the finest catalogue ever gotten out by any school. It will be sent to you free. The fall term begins September 4th. w-f

Kellogg's

TOASTED CORN FLAKES

Stands Supreme in the estimation of all who have taken the first taste

It's the flavor that has placed it there.

There are many rivals, but not one has yet been able to even approach either the flavor or the tender crispness.

The secret of the manufacture of KELLOGG'S—the original—the first flakes ever made from corn—has never been learned by the imitators. They have not been able in a few months to counterfeit the product which required years to perfect.

NONE GENUINE WITHOUT THIS SIGNATURE

\$3.50 RECIPE FREE, FOR WEAK KIDNEYS

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and the Back

Also

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or the frequent passage of urine; the forehead

and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a Quick Recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K33 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrelson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at all druggists. ttw

MRS. IRMA CAMP HARTLEY, Superintendent of Schools

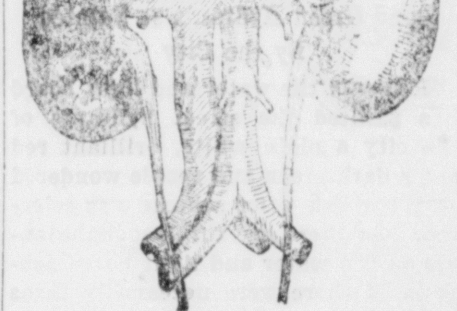

\$3.50 RECIPE FREE, FOR WEAK KIDNEYS

Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and the Back

Also

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead

and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a Quick Recovery, you ought to write and get a copy of it. Many a doctor would charge you \$2.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K33 Luck Building Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy Free—you can use it and cure yourself at home.

616 Laurel Street.

Escaped With His Life

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harrellson, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it, sure enough. I tried everything, I could hear of, for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at all druggists. tsw

Kellogg's

TOASTED CORN FLAKES

Stands Supreme in the estimation of all who have taken the first taste

It's the flavor that has placed it there.

There are many rivals, but not one has yet been able to even approach either the flavor or the tender crispness.

The secret of the manufacture of KELLOGG'S—the original—the first flakes ever made from corn—has never been learned by the imitators.

They have not been able in a few months to counterfeit the product which required years to perfect.

NONE GENUINE WITHOUT THIS SIGNATURE

W. K. Kellogg
